THE NEW VERSION OF THE STANDARD Z359.1 SAW A MAJOR CHANGE TO THE REQUIREMENTS FOR CONNECTORS IN THAT THEY ARE NOW REQUIRED TO BE TESTED TO 3600LB (17KN) IN ALL DIRECTIONS AND MUST BE MARKED ACCORDINGLY ON THE BARREL -

- GATE FACE LOAD
- SIDE LOAD
- MINOR AXIS LOAD (NON-CAPTIVE EYE ONLY)

IN RESPONSE TO THIS TECHNICAL CHANGE ALMOST ALL ISC STEEL KARABINERS ARE NOW AVAILABLE WITH THE NEW STYLE OF GATE (TL TWISTLOCK AND SS SUPERSAFE VERSIONS ONLY).

IN ADDITION, DUE TO MARKET DEMAND WE NOW OFFER OUR ANSI D7 VERSIONS ON AN EX-STOCK BASIS AND WE'VE LOWERED OUR MINIMUM ORDER QUANTITIES TO ACHIEVE THE BEST PRICES. WITH THESE AVAILABLE FOR IMMEDIATE SHIPMENT TO DEMAND BY AIR OR SEA WE BELIEVE THAT WE CAN OFFER COMPETITIVE PRICES AND LEAD TIMES WITH LEAST IMPACT ON YOUR CASHFLOW TO RIVAL ANY OTHER 'QUALITY' PROVIDER. AND FOR YOUR PEACE OF MIND ISC HAS RETAINED ITS \$MULTI-MILLION PRODUCT LIABILITY INSURANCE COVER THROUGHOUT 2009.
