PRODUCT OVERVIEW

The Deadweight Trolley is a Portable Anchor Device for use behind Structural Handrails, Balustrades and Parapet Walls. The deadweight Trolley is quick and easy to set up, store and transport and is ideal for use in applications where working space is limited.

The DW100.3 Deadweight Trolley has been designed for use with Olympic Weight Plates (supplied with 6 x 25kg Plates, as standard). The device can also be purchased without weight plates, reducing shipping costs by allowing users to purchase weights locally.

TECHNICAL INFORMATION

Part Code	DW100.3
Dimensions	660 x 540 x 1410mm (further dimensional information can be found in the User Manual)
Olympic Weight Plate Weight	25kg (55.2lbs) (6 plates required per device)
Frame Weight (without weight plates)	31kg (68lbs)
MBS	15kN (3372lbf)
Max. Rated Load	200kg (440lbs)
Body Material/finish	Steel/Power Coated
Weight Plate finish	Stainless Steel Inner ring, Cast Iron plate/rubber-coated
Minimum/Maximum Upstand	600mm (24") /1200mm (47")
Standards	EN795:2012- Type E, PD CEN/TS 16415:2013, IRATA International Code of Practice: Requirement that anchors for rope access must meet a 15kN static test.
