

RP229 Chest Ascender

Data Sheet

climb. work. rescue.

ISC

SOLUTIONS IN METAL

The ISC Chest Ascender is compact & lightweight and has been designed for use on a full body harness, and therefore it is ideal for use in Rope Access work. The cam is spring-loaded and fitted with a catch mechanism to allow for easy one-handed operation of the device whilst attaching/removing the device to/from the rope.

The RP229 has an increased grip at low load, even on wet, greasy/oily ropes. The spikes are angled downwards, giving maximum grip, allowing the cam to slide easily up the rope.

Weight	154g (6oz)
Rope Size	9-12mm
Colour	Black
Body Material	Aluminium
Finish	Anodised
Standards	EN567:97
