Regs Kit,

PRODUCT OVERVIEW

The HT060A Hitch cord is made from Ø10mm Ocean Polyester and is 60cm in length (eye to eye), with ISC sewn eye terminations. This hitch cord is ideal for creating a compact hitch configuration, making it ideal for use with the RT305 Chipmunk FLEX short tether.

Teufelberger Ocean Polyester is designed to meet the complex requirements imposed on hitch cords. Ocean Polyester is constructed from a Polyester/Aramid cover and a Polyester core, resulting in a highly abrasion resistant, grippy and heat resistant hitch cord.

TECHNICAL INFORMATION

Part Code	HT060A
Diameter	10mm (0.39")
Length	60cm (23.6")
Terminations	Sewn eye terminations (both ends)
Cord Type	Teufelberger Ocean Polyester (Polyester Core with Polyester & Aramid Cover)
MBS	22kN (4946 lbf)
Weight	67G (2.4oz)
Approved Standards	EN 795:2012-B, EN 566:2017, EN 354:2010
PPE Regulation Kits	Approved as part of the KT282 PPE Regulation APEX/Rope Wrench Kit, with the Chipmunk FLEX Tether, when used with approved kit components and tied in a '3-Wrap Knut' hitch configuration. Must be used on Teufelberger Xstatic Rope. Please see KT282 User Manual for full information.
